Grindmaster-Cecilware 2018 Pricing

To Our Valued Customers,

Grindmaster-Cecilware continuously strives to provide the best value and solutions across our strong product portfolio of brands – Grindmaster®, Cecilware®, Crathco®, and American Metal Ware®. We work diligently to maintain our pricing integrity and provide the best possible pricing for our product lines, however, we must make adjustments based on market factors including increasing raw material, labor, and healthcare costs.

Effective January 1, 2018, Grindmaster-Cecilware will be increasing prices across some of our product categories, which will result in average increase of 3%. Specific model pricing will be communicated in the near future.
